

2022 Recycling Excellence Awards Nomination Form and Guidelines

Throughout the state of Wisconsin, many efforts are ongoing to increase the effectiveness and accessibility of recycling and diversion programs. These efforts reduce the amount of waste buried in landfills, conserve our natural resources, and have created thousands of jobs in Wisconsin. To recognize and encourage these efforts, the Wisconsin DNR presents Recycling Excellence Awards to communities, organizations, schools, and businesses who have demonstrated outstanding achievements in recycling and waste diversion.

One of the goals identified in A Blueprint for DNR Climate Action 2021-2025 is to reduce per-capita food waste disposed of in Wisconsin landfills by half by 2030 (from 2020 levels). Please note- food waste recovery or diversion programs are eligible for Recycling Excellence Awards!

Who is eligible?

- Any responsible unit (RU)/community, organization, school, or business in the state of Wisconsin.
- Any individual can self-nominate or submit a nomination on another's behalf.
- A nominee can be nominated multiple times for multiple awards but will receive no more than one Recycling Excellence Award every other year.
